

EQ IN ACTION

TalentSmartEQ is thrilled to launch EQ in Action, a suite of programs designed to help learners apply EQ to the critical skills needed to address your biggest organizational challenges. Initially, this library of solutions will include five 2-hour interactive sessions, focused on skill practice and development. The reality is, individual and leadership development or organizational transformation - be it a merger, product pivot, or changing business model - starts one person at a time. EQ in Action is a targeted way to meet transformation head on.
